

Family Business Australia has a strong focus on the development of the **Next Generation** of family business owners and operators through helping them deal effectively with the issues that are unique to Family Business.

Our **Next Generation** (Next Gen) Committee is a group of passionate, dedicated and supportive 'Next Genners' from around Australia who, like you, will become the leaders of Australian businesses in the future. They seek to promote the interests of Next Gen members within the FBA community and assist with developing a supportive educational platform incorporating both business and personal development that meets the needs and interests of Next Gen members.

Next Gen provides access to a huge network of people across Australia who are, of course, all part of the next generation of family businesses.

To find out how you can become part of this unique extended business family and learn about Next Gen activities in your State, contact your local State or visit www.fambiz.org.au.

Are you the

**Next
Generation**

of your family business?

Andrew Horne
D S Horne Pty Ltd

“Coming from a smaller family business, FBA’s Next Gen events have been a fantastic opportunity to meet & network with a vast range of businesses that I otherwise wouldn’t have been exposed to. It has been refreshing to realise that the issues facing the next generation in some larger family businesses are exactly the same as I am facing in ours. Hearing first hand ‘war stories’ from peers has given me the encouragement to address many of these sooner rather than later.”

Tegan Webb
Spring Gully Foods Pty Ltd

“I have found that by having the opportunity to meet and network with other Next Genners we are able to learn from each other, as well as develop strong friendships for the future.”

Duncan Shave
Shave Human Resources

“Having the opportunity to network and learn with other Next Gen family members has been invaluable. When looking to purchase my family business last year, it occurred to me that I had no advisers as they all resided with my father. Utilising my Next Gen colleagues, I was able to meet my own advisers and gain valuable learning to assist in the transition. Next Gen family members have differing needs to the incumbents and as such having our own network is very important.”

Justin Taylor
T & T Corporation Pty Ltd

“Having been involved in our family business since its inception some 6½ years ago, we have experienced success in growing the business rapidly and profitably. This success has not all been smooth sailing on either the business or family fronts. From the family perspective, I can attest to the FBA support networks giving access to pertinent information and helping us through some difficult situations. Being part of the FBA has ensured we have the appropriate knowledge to developed strategies to continue our success moving forward. For me, the Next Gen Group has been an invaluable part of this networking, through sharing knowledge and giving an alternate perspective to situations that I otherwise would not have appreciated. Next Gen Group has also allowed me an opportunity for personal growth, challenging my intellect and holding me accountable.”

Pippa Hallas
Ella Baché

“Joining Ella Baché, our family business was one of the most challenging times in my life! I was not prepared for the fact that my last name resulted in people treating me differently to my previous roles, and a few key people giving me a really hard time. Meeting other Next Genners has allowed me to discuss my experiences openly with others who understand and can share their experiences and provide strategies to best handle every situation. Before I joined I never realised being part of a family business was actually common in Australia!”

Lucy Willson
Bremerton Vintners Pty Ltd

“Family Business Australia is a fantastic organisation that has given me the opportunity to connect with other ‘Next Genners’ through a variety of seminars and get-togethers. Most importantly it has given me the chance to discuss potential problems and solutions with my peers, and realise that the same issues affect us all and generally there is a solution!”
