HALF DAY WORKSHOP WITH ROGER LA SALLE

Where would you want to come in your business, first? second? Our expert says a fast second or even third!

Roger suggests you should want to be a fast second or even a third when it comes to innovation! What, third, why would I only want to be third you ask? Roger a guru in the art of innovation and finding opportunity explains his theory using Windows for personal computers as an example - guess who was third? Bill Gates was third, and we don't need to outline how successful he's been!

Without a doubt the 'Innovate or Perish' session was the absolute highlight of the Vic/Tas, South Australian and West Australian conferences in 2009! Join us for an extended half day workshop session with Roger LaSalle. Its time to start thinking - Practical implication you can take back to the workplace, your life and your future, guaranteed!
